

## THE IMPORTANCE OF ENGLISH IN TODAY'S WORLD

Shakhzod Khidirov

Student

National University of Uzbekistan

Tashkent, Uzbekistan

**Abstract:** This article discusses the importance of English in today's world. English has become one of the most widely spoken languages in the world, serving as a common language for communication, business, education, and diplomacy. The importance of English cannot be overstated as it provides a gateway to global opportunities, facilitating cross-cultural communication and promoting cultural exchange. In the realm of business, English has become the language of international commerce, with the majority of business transactions conducted in English. English proficiency is also a crucial factor in gaining access to higher education, as many universities and academic institutions require students to demonstrate a certain level of English proficiency before admission.

**Key words:** importance of English, widely spoken language, communication, business, education, diplomacy, cross-cultural communication, cultural exchange.

## HOZIRGI ZAMONDA INGLIZ TILINING AHAMIYATI

**Annotatsiya:** Ushbu maqolada bugungi dunyoda ingliz tilining ahamiyati muhokama qilinadi. Ingliz tili aloqa, biznes, ta'lim va diplomatiya uchun umumiy til bo'lib xizmat qiluvchi dunyodagi eng keng tarqalgan tillardan biriga aylandi. Ingliz tilining ahamiyatini cheklab bo'lmaydi, chunki u global imkoniyatlarga kirish eshigi bo'lib, madaniyatlararo muloqotni osonlashtiradi va madaniy almashinuvni rag'batlantiradi. Biznes sohasida ingliz tili xalqaro savdo tiliga aylandi, biznes operatsiyalarining aksariyati ingliz tilida amalga oshiriladi. Ingliz tilini bilish oliy ta'limga kirishda hal qiluvchi omil hisoblanadi, chunki ko'pgina universitetlar va akademik muassasalar talabalardan kirishdan oldin ingliz tilini bilish darajasini ma'lum darajada ko'rsatishni talab qiladi.

**Kalit so'zlar:** ingliz tilining ahamiyati, keng tarqalgan til, muloqot, biznes, ta'lim, diplomatiya, madaniyatlararo muloqot, madaniy almashinuv.

## ВАЖНОСТЬ АНГЛИЙСКОГО ЯЗЫКА В СОВРЕМЕННОМ МИРЕ

**Аннотация:** В этой статье обсуждается важность английского языка в современном мире. Английский стал одним из самых распространенных языков в мире, выступая в качестве общего языка для общения, бизнеса, образования и дипломатии. Важность английского языка невозможно переоценить, поскольку он открывает доступ к глобальным возможностям, облегчая межкультурное общение и способствуя культурному обмену. В сфере бизнеса английский язык стал языком международной торговли, при этом

большинство деловых операций осуществляется на английском языке. Владение английским языком также является решающим фактором для получения доступа к высшему образованию, поскольку многие университеты и учебные заведения требуют от студентов продемонстрировать определенный уровень владения английским языком перед поступлением.

**Ключевые слова:** значение английского языка, широко распространенный язык, коммуникация, бизнес, образование, дипломатия, межкультурная коммуникация, культурный обмен.

### **Introduction**

The importance of English as a global language cannot be overstated. As the language of international communication, trade, and diplomacy, English has become the lingua franca of the modern world. It is the language of science, technology, and business, and it is the language that connects people from different cultures and backgrounds. In this article, we will explore the importance of English in today's world and why it is essential to learn this language. English is considered to be the most widely spoken language in the world, with over 1.5 billion people who speak it at some level of proficiency. It has become the international language of business, science, technology, politics, and entertainment. English is the official language of more than 50 countries, and it is the language of instruction in many universities and schools worldwide. In this article, we will discuss the importance of English in today's world and why it is essential to learn English.

### **The main findings and results**

Firstly, English is the language of international communication. It is the primary language used in international organizations such as the United Nations, the World Bank, and the International Olympic Committee. English is also the language of the majority of academic publications and conferences. This means that if you want to work in an international environment, you need to have a good command of English. English proficiency is a requirement for many jobs that involve international travel or communication. It is the language that is used in international trade, diplomacy, and academic conferences. Many multinational companies have adopted English as their official language to facilitate communication among their employees and with their clients and partners worldwide. This has led to a high demand for English proficiency among job seekers, as it has become a skill that is necessary for success in the global economy.

Secondly, English is the language of business. It is the language used in international trade agreements, negotiations, and contracts. English is also the language used in multinational corporations, where employees from different countries need to communicate with each other. In today's globalized economy, knowledge of English is a prerequisite for success in many fields. Companies prefer to hire employees who are fluent in English because they can communicate with customers and partners from different parts of the world.

Thirdly, English is the language of science and technology. The majority of scientific publications are written in English, and many scientific conferences are conducted in English. English is also the language used in the computer and technology industry. Most of the software and programming languages are written in English, and many of the leading technology companies are based in English-speaking countries. Therefore, if you want to work in the scientific or technology field, it is essential to have a good command of English. Most of the scientific papers, research articles, and technical documents are written in English. This is because

English has become the language of the international scientific community, where researchers from different countries collaborate on research projects. Therefore, to participate in scientific research and technological innovation, one needs to have a good command of the English language. The internet has revolutionized the way we communicate, work, and learn. It has also become a platform for global communication, where people from different countries can connect and exchange ideas. English is the dominant language of the internet, and most of the content available online is in English. This includes websites, social media platforms, blogs, and online courses. Therefore, to access and benefit from the vast amount of information available on the internet, one needs to have a good command of the English language.

Fourthly, English is the language of culture and entertainment. English is the language used in the majority of movies, television shows, and music. It is the language that connects people from different parts of the world through popular culture. Many people learn English because they want to understand their favorite movies or songs without having to rely on translations. English is also the language of literature, with many of the world's greatest works of fiction written in English. Hollywood produces most of the world's movies and television shows, and they are mostly in English. English is also the language of popular music, and most of the world's top-selling artists sing in English. Therefore, to enjoy and appreciate the entertainment industry, one needs to have a good command of the English language.

Fifthly, English is the language of travel. English is the most widely spoken language in the world, and it is the language used in the majority of tourist destinations. If you are planning to travel to a foreign country, chances are you will need to speak English to communicate with locals or other travelers. English is also the language used in aviation and maritime industries, where communication is essential for safety. Most of the travel-related information, such as flight schedules, hotel reservations, and travel guides, is available in English. Therefore, to travel to different countries and communicate with the locals, one needs to have a good command of the English language.

Lastly, learning English opens up opportunities for personal growth and development. English is the language used in many online courses, which means that you can learn new skills and knowledge by studying in English. English proficiency also allows you to read books, watch movies, and consume media in their original language, which can improve your understanding and appreciation of other cultures. English has become a tool for social mobility, where people can improve their social and economic status by learning English. Studies have shown that people who speak English as a second language earn more than those who do not. English is the language of instruction in many universities and schools worldwide. This includes top-ranked universities such as Harvard, Oxford, and Cambridge, where English is the primary medium of instruction. Therefore, to pursue higher education in these institutions and many others, one needs to have a good command of the English language.

### **Conclusion**

In conclusion, English is an essential language in today's world. It is the language of international communication, business, science and technology, culture, travel, and personal growth. If you want to succeed in an international environment, it is essential to have a good command of English. Learning English can open up opportunities for personal and professional growth, and it can help you connect with people from different cultures. Therefore, if you have not already learned English, it is time to start learning this important language.
